

## Precautionary Health Measures

In order to protect our staff and ensure the health safety of all our guests, specific and strict health measures will be applied at Choisy les Bains.

These measures include constant monitoring by our staff and a check upon arrival of each guest at the residence.

### **1) Entrance procedure – reception desk**

- - Team members and newly arrived guests requested to measure body temperature upon arrival/check in at a scanning point at our reception desk.
- - Sanitizing gel at the reception and various stations throughout the hotel will be available.

### **2) Overall Hygiene standards**

- All staff will be wearing masks at all time during their shifts. Masks well also have to be worn by residents in common areas.
- Staff will be applying hand sanitizers frequently and guests will be encouraged to do so - sanitizers are located throughout the residence.
- Guests toilets and public areas are sanitized several times per day.
- Lift panels, counters, hand rails, and door panels are sanitized multiple times per day as well.
- Staff will be trained to follow precautionary measures including social distancing, the wearing of masks and constant hand hygiene.
- All guests will have to respect social distancing.
- The number of people present at any one time in a property should not exceed the maximum number of people authorised in a property per booking.
- For health security reasons, all guests wanting to use the pool (in common areas) will be required to shower before entering the pool.
- When using the pool in common areas, appropriate swimwear should be worn at all times. Swimwear worn should be made especially for this purpose and should not be made of absorbent materials such as cotton.

For their own safety and the safety of other, all guests will kindly be requested to follow social distancing and hygiene guidelines.
